

CT E-News Sustainable Infrastructure Update

...fostering the development & commercialization of innovative sustainable infrastructure solutions for the global marketplace.

Leading Engineering Company Views CT as a Catalyst in the Province

With 30 years of experience, Clifton Associates Ltd. (CAL) has established itself as a leading engineering, science, and technology company focused on providing solutions for projects dealing with rock, soil, water, and air.

Founded by Wayne Clifton in 1978, the company has successfully conducted major engineering projects such as the Wascana Lake Urban Revitalization Project in Regina in 2003. CAL has also expanded from two offices in Saskatchewan to six across Western Canada, with headquarters in Regina. [Read More.](#)

Is your company actually innovative?

"Innovation" is the business topic du jour, but what does it really mean to be an "innovative company," and how does an organization know if it is innovative?

"The factors that must be in place to support innovation are not a mystery. Companies that rely on 'innovative thought' to advance their product development, sales, and customer service processes must be sure they encourage and support breakthrough thinking," says Andrew Graham, CEO of [Kepner-Tregoe Inc.](#), an international consulting and training services firm. FITTskills Courses Cover the Basics of International Business

FITTskills International Trade Training courses present the fundamental aspects of international business. The courses are based on real case studies and involve self study, two days of classroom instruction, a review session, and an optional final exam or project.

Two FITTskills are coming up in Regina: International Trade Finance on April 26-27 and Global Entrepreneurship on May 3-4. In Saskatoon, a course in International Marketing will be held on May 3-4. [Read More.](#)

"Societies of Tomorrow", theme of Student Summit for Sustainability

This May, the University of Regina will be host to the Student Summit for Sustainability (S3). The summit will bring together international students, public policy makers, administrators, and industry and research leaders who are seeking to advance sustainable development. S3 is an annual event of the World Student Community for Sustainable Development (WSC-SD), an international student organization with members in different post-secondary institutions across the globe. The University of Regina Students for Sustainability (URSS or WSC-SD Regina) is currently the only member chapter in Canada. 2008 marks the first year the summit will be held in Canada, after WSC-SD Regina won the hosting bid at the 2007 S3 in Tokyo, Japan. Contact Us

Communities of Tomorrow (CT) is a partnership between Western Economic Diversification Canada, Ministry of Enterprise and Innovation, City of Regina, National Research Council, and the University of Regina. CT provides consulting services to industry firms and researchers from the idea phase to the marketplace, including access to funding support to quantify an idea or prove a product's potential. Do you have an idea that could lead to an innovation in sustainable infrastructure? Tell CT about it and help make it a reality.
